

This TMD sets out the key attributes of the Product, the likely class of consumers for which the Product could be appropriate, the distribution conditions and restrictions, and outlines the triggers for review of the target market. It forms part of the requirements of the Design and Distribution Obligations (**DDO**) for Issuers, required under section 994B of the Corporations Act 2001 (Cth) (**the Act**).

This document is not a comprehensive summary of the Product's features and does not take into account your individual objectives, financial situation and needs. You should carefully read the Product Disclosure Statement for this Product and we recommend that you seek financial planning advice, and consider whether this investment is appropriate to your objectives, financial situation and needs before making any investment decision.

How to read the TMD

This TMD uses Consumer Attributes to indicate the likely objectives, financial situation and needs of the class of consumers within this Product's target market. A colour grading system is used to indicate whether consumers with the identified Consumer Attributes will likely fit in the target market.

Consumers are unlikely to be within the target market for this product if:

- one or more of their Consumer Attributes are ■ ;
or
- three or more of their Consumer Attributes are ■

Why is the Service likely to be consistent with the likely objectives, financial situation and needs of consumers		
The Service is designed for consumers wanting personal service with an increased diversification of investment options through professionally selected fund managers, online account administration, consolidated reporting, and the flexibility to design a portfolio that suits their investment needs. It is likely to be appropriate for the class of consumers identified in the section below titled ' Appropriateness '.		

Appropriateness

The Operator of the Service has assessed the product and formed the view that the product, including its key attributes, is likely to be consistent with the objectives, financial situation and needs of consumers in the target market as described here. The attributes of this product are likely to be suitable for consumers with the attributes identified below, because:

- the product has been designed specifically for clients who receive personal advice;
- there is a range of investment options to cater for a broad range of risk profiles and asset class preferences; and
- the fees and costs associated with the product are consistent with market rates.

Consumer objectives, needs & financial situation	Details

The following information is to be provided to the Trustee for each complaint: <ul style="list-style-type: none"> (a) What is the complaint and the consumer's expected outcomes from the complaint. (b) Factual circumstances of the complaint (c) The Consumer's status in the target market (d) The Consumer's investment objective, investment timeframe and risk tolerance (e) Any outcomes to the complaint 	Within 10 business days following end of each quarter.	All distributors

Distributors may report to using by sending their report to TMDReporting@fiducian.com.au or through recognised software providers (eg iress).

Definitions

Term	Definition
Investment objective	
Capital Growth	The product is designed to generate capital return from the growth of the value of the underlying assets over time. The product provides material exposure to growth assets or otherwise seeks an investment return above the current inflation rate.
Income	The product is designed to generate a positive yield in order to distribute regular investment income to investors. The product provides material exposure to income-generating assets (typically, high dividend-yielding equities, fixed income securities and money market instruments). The product may also seek long-term capital growth and be labelled with a 'total return' (or similar) strategy and objective.
Capital Preservation	The product is designed to preserve capital and limit loss in the portfolio. The product provides material exposure to defensive assets and seeks to reduce volatility and minimise loss in a market down-turn.
Capital Guaranteed	The product is designed to seek a guarantee or protection against capital loss whilst still seeking the potential for capital growth (typically gained through a derivative arrangement). The product would normally invest in products that are capital guaranteed investments, term deposits and cash, where future performance is not guaranteed other than that it not be negative.
Specialist (Sustainable / Ethical / Sharia / ESG)	These are funds that have a specific investment style and specialisation, such as ESG, Sharia etc.

Consumer's intended product use (% of Investable Assets)	
Solution/Standalone (75-100%)	The consumer intends to hold the investment as either a part or the majority (up to 100%) of their total investable assets (see definition below). The consumer typically prefers exposure to a product with at least High portfolio diversification (see definitions below).
Core Component (25-75%)	The consumer intends to hold the investment as a major component, up to 75%, of their total investable assets (see definition below). The consumer typically prefers exposure to a product with at least Medium portfolio diversification (see definitions below).
Satellite (<25%)	The consumer intends to hold the investment as a smaller part of their total portfolio, as an indication it would be suitable for up to 25% of the total investable assets (see definition below). The consumer is likely to be comfortable with exposure to a product with Low portfolio diversification (see definitions below).
Investable Assets	Those assets that the investor has available for investment, excluding the residential home.

Portfolio diversification (for completing the key product attribute section of consumer's intended product use)	
Low	Single asset class, single country, low or moderate holdings of securities - e.g. high conviction Aussie equities.
Medium	1-2 asset classes, single country, broad exposure within asset class, e.g. Aussie equities "All Ords".
High	Highly diversified across either asset classes, countries or investment managers, e.g. Australian multi-manager balanced fund or global multi-asset product (or global equities).

Consumer's intended investment timeframe	
Short (≤ 3 years)	The consumer has a short investment timeframe and may wish to redeem within three years.
Medium (3 - 7 years)	The consumer has a medium investment timeframe and may wish to redeem within three to seven years.
Long (> 7 years)	The consumer has a long investment timeframe and is unlikely to redeem within seven years.

Risk and Return	
Very high risk	Consumer has a more aggressive or very high risk appetite, wishing to maximise returns and willing to accept higher potential losses (e.g. 6 or more negative annual returns over a 20 year period or SRM 7) and possibly other risk factors, such as leverage, that could increase returns, as well as the size and magnitude of losses.
High risk	Consumer will be higher risk in nature, willing to accept higher potential losses (e.g. 4 to less than 6 negative annual returns over a 20 year period or SRM 6) in order to target a higher target return profile.
Medium to high risk	Consumer will be higher risk in nature, willing to accept higher potential losses (e.g. 3 to less than 4 negative annual returns over a 20 year period or SRM 5) in order to target a higher target return profile.
Medium risk	Consumer will be moderate or medium risk in nature, wishing to minimise potential losses (e.g. 2 to less than 3 negative annual returns over a 20 year period or SRM 4) and comfortable with a moderate target return profile.
Low to medium risk	Consumer will be conservative or low risk in nature, wishing to minimise potential losses (e.g. less than 1 negative annual returns over a 20 year period or SRM 3) and comfortable with a low to moderate target return profile.
Low risk	Consumer will be conservative or low risk in nature, wishing to minimise potential losses (e.g. 0.5 to less than 1 negative annual returns over a 20 year period or SRM 2) and comfortable with a low target return profile.
Very Low risk	Consumer will be conservative or low risk in nature, wishing to minimise potential losses (e.g. less than 0.5 negative annual returns over a 20 year period or SRM 1) and comfortable with a very low target return profile.

Consumer's need to withdraw money	
Low, Medium or High	The consumer seeks to invest in a product which permits redemption requests at various frequencies under ordinary circumstances and the issuer is typically able to meet that request within a reasonable period.

Review and Distribution	
Significant Dealing	<p>Dealings outside this TMD may be significant because:</p> <ul style="list-style-type: none">(a) It is inconsistent with the distribution strategy of this product, and/or(b) It may result in transactions that cause actual or potential harm to consumers (or a class of consumer). <p>In each case, the distributor should have regard to:</p> <ul style="list-style-type: none">(a) the benefits and risks disclosed by each investment product,(b) the actual or potential harm to a consumer in an investment that is made outside the TMD, and(c) an assessment of consumer investment across their portfolio, as determined by the number of green, yellow and red ratings. <p>Objectively, a distributor may consider a dealing (or group of dealings) outside the TMD to be significant if, when arranging investment products in the Service on behalf of a consumer, that there are more red ratings within the portfolio as compared with yellow and green ratings.</p>
