

Monthly Report - November 2018

Fund Description

The Fiducian Growth Fund is intended to have a relatively higher exposure to shares than either the Fiducian Capital Stable Fund or the Fiducian Balanced Fund and therefore should be capable of generating higher returns, but it will also be exposed to capital losses when markets turn down. Over long periods of time (at least 5 to 7 years), growth funds tend to outperform other managed funds that have a lower exposure to growth assets (shares and property).

This Fund is suitable for investors seeking good long-term capital growth with possible short-term volatility. Investors should be prepared to hold their investment for periods exceeding five years. Holdings include international and Australian shares, property, fixed interest and liquid assets.

Manager Commentary

The Fund under-performed the median manager by 0.8%, falling 1.8% during November. Over the rolling year, however, the Fund out-performed the median manager, falling 0.7% and out-performing by 0.2%. During November, domestic and international equities and listed properties under-performed cash and bonds. Global equities and domestic property securities fell in November. The Fund's overweight exposure to equities detracted from fund performance. Under-performances by the Fiducian Australian Shares Fund and the Fiducian International Shares Fund also detracted somewhat from fund performance on a relative basis. Underweight exposure to defensive assets also detracted from fund performance as fixed interest sectors were marginally positive, with the Australian 10-year Government bond yield falling by 3 basis points to 2.59%. Energy, base metals and bulk commodities prices were weaker during the month, which weakened the resources sector.

An overweight exposure to international and domestic equities remains, as currently valuations for equities still appear to be more attractive than for Australian and international bonds, despite a recent fall in most bond markets. This fund was ranked 88th out of 181 multi-sector diversified balanced/growth funds surveyed by Morningstar for the rolling year, while it ranked 1st on the same survey over the 5 years to end-November.
